		DATE OF MEETING	November 27, 2014
		TIME OF MEETING	13.00 - 16.00 hrs
		LOCATION OF MEETING	Papendal
FROM	Rob van der Hage	PAGE	1 of 2
SUBJECT	Technical meeting, discuss technical options & requirements to ensure most efficient interface between OWF – TenneT platform		

1. Opening

2. HV/MV connection interface between OWF – TenneT

- physical interface point
- voltage level
- number of J-tubes
- operation of switch-gear

3. Voltage and frequency support

- P/Q measurement requirements
- data links from platform to shore
- SCADA facilities

4. Power Quality arrangements

- RfG code
- compensation requirements

5. Export profile

- maximum 700MW or overplanting

6. RfG code (provisionally TenneT document SOC 11-175)

7. A.O.B.; other requirements which would reduce LCOE
